# Start reaping benefits of ABELMed EHR-EMR/PM from day one:

ABELMed has many enhanced features for your practice. For example, the Physician Dashboard, Patient Manager, Kiosk, and Portal are all designed to support your workflow and the success of your medical practice.

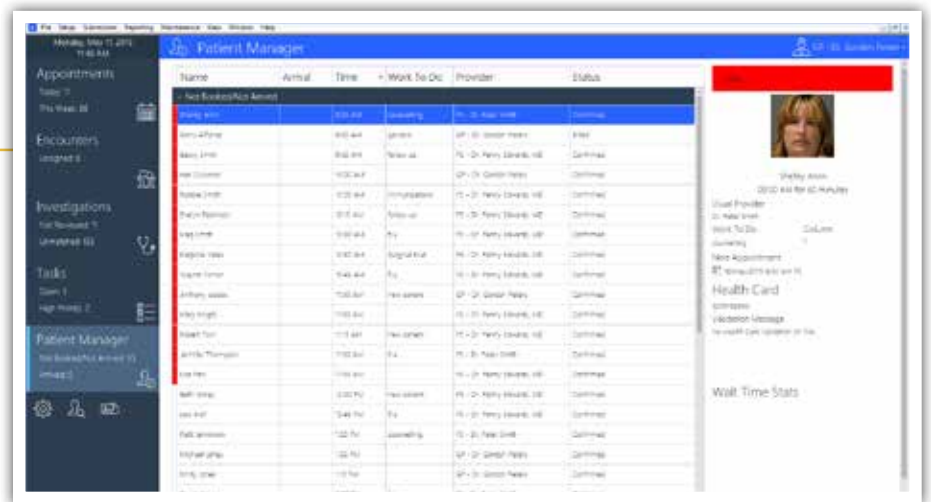

## Physician's Dashboard

Know what you need to do and when. The dashboard helps you **better manage your time and outstanding work-to-do** by drawing your attention to important items such as Investigations, Encounters, Appointments, and Tasks.

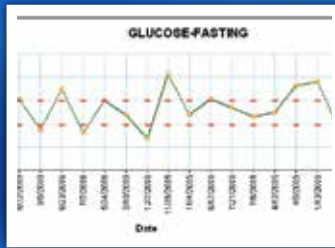

## Patient Manager

Track patients in real time as they move through the various stages of their visit. **Save time and improve your patient's experience** through access to timely and relevant information.

## Patient Portal

**Boost practice efficiency with ABELMed Portal** – the email and text messaging-based Appointment Reminder and Patient Communication solution that's designed exclusively for your ABELMed system. It is secure, convenient and easy to use. You can choose to allow patients to confirm and request appointments, update demographic information, request prescription refills, and complete forms.

Lab Result Graphs

Health Card Validation with MOH

Flowsheets for Chronic Disease Management

Record Encounters

Secured Prescriptions

Test Order Forms

## Benefit from OLIS/HRM Functionality

With ABELMed you are equipped to get instant access to patients' lab results from the OLIS (Ontario Laboratories Information System) database. Whether these tests were ordered by you or other physicians, you can download relevant test results from many community labs, hospitals and public health laboratories.

Using ABELMed's HRM (Health Report Manager), medical record reports such as Consultations, Discharge Summaries, Emergencies, and Operative Reports can be retrieved from hospitals and health clinics and imported into ABELMed EMR. Diagnostic Imaging reports that may be retrieved include but are not limited to CTs, Ultrasounds, Echocardiograms, and Mammograms.

# Your Path to Paperless Productivity

ABELMed can match your workflow for a smooth transition from paper to EMR. We use the latest Microsoft technologies for effortless integration with Tablet PCs, mobile devices and other technologies. Save time and money, and reduce stress by transitioning to a paperless practice with ABELMed. It can represent the most immediate improvement you can make to your overall success.

- Chart patient visits electronically and retrieve OLIS lab reports in real time
- Receive hospital reports electronically through our Health Report Manager (HRM)
- Save time with ABELMed's Health Card Validation (HCV) that automatically updates the patient record
- Import vital sign measurements that become part of the patients' record directly from Welch Allyn medical devices
- Eliminate paper, scanning and shredding with integrated fax module
- Track inbound referrals directly from the integrated fax module using the Wizard for Specialists

## Enhance your Patient Care

- Customize reference ranges for laboratory values, based on patient-specific conditions, to increase the accuracy of lab results and reduce false alerts
- Set patient-specific alerts to improve care and practice management
- Receive automatic alerts for vital sign readings that are outside of the normal range
- Improve patient safety through geriatric and pediatric prescription dosage alerts
- Benefit from Chronic Disease Management Flowsheets

## Enjoy Value-Add Support and Services

- Eliminate practice down time with our innovative, quick implementation strategy
- Count on our personalized service and unparalleled 24/7/365 Technical Support
- Enjoy peace of mind with secure in-house data and Disaster Recovery Planning services
- Implement multiple options for security and patient privacy

"Since we implemented ABELMed EMR, the flow of patient information is better now. It's easier to instantly transfer and handle patient information between the administrative and clinical staff."

- Dr. Nashed Rashed

"If there is ever a question or we need some assistance, everyone at ABEL is always extremely helpful."

- Dr. Janan Bilbily
