

Enabling Lab Monitoring

Before you can receive your electronic laboratory results, you must enable ABELMed's Lab Monitoring service to connect to the various laboratories.

To enable your Lab Monitoring:

1. On your Desktop, double-click the **ABELMed Group** icon.
The ABELMed Group window appears.
2. Double-click **Lab Monitor**.
An icon will appear on your Desktop toolbar.
3. Right-click on the icon to display a pop-up menu.
4. Notice that **Lab Monitoring** is already enabled by default once you start the Lab Monitor.
5. Click **Shutdown** to disable monitoring.
