The Patient Dashboard

This streamlined user interface provides major workflow advantages by giving you one-screen access to multiple types of information and functions.

Easily track patients as they move through the stages of the appointment queue with quick access to the things you need most.

Business Operations

- Therapist and Resource Productivity reporting.
- Revenue and Referral reports for trend analysis.
- Individual location and Enterprise (multiple location) Production Reporting.
- Adobe PDF Form Integration – create regionally mandated and custom forms such as WSIB, hospital, insurance, and patient intake forms.

Patient and Resource Scheduling

- Multi-provider and resource scheduler.
- Full drag and drop appointment movement.
- Single and multiple location scheduler view.
- Quick and easy recurring appointment entry.
- One click access for most administrative functions.
- Day and Week-At-A-Glance Day Sheets.
- Automatic patient appointment flags.
- Extensive scheduler views and customization.
- Tracking of unscheduled pending treatment, missed appointments and cancellations.

“When you are dealing with a number of professionals and specialties within one practice, you need to ensure that things are flowing seamlessly, not only in the examination and treatment rooms, but also at the front desk. To help us manage all aspects of the clinic, ABELMed has been a wonderful addition and great business partner.

Cloverdale Walk In (Wellness and Rehab) Clinic

Easy to use features that help boost practice success

Appointment Reminders and Patient Portal

Designed exclusively for your ABELMed system, the email and text messaging-based system is secure and easy to use.

- **Patient Convenience:** Patients can easily respond to appointment notices.
- **Reduced Costs:** Informing patients about appointments becomes more scalable.
- **Reduced No Shows:** Patients are more likely to keep appointments.
- **Increased Booking Rates:** Patients are more likely to schedule.
- **Patient Engagement:** Patients become more actively involved in their healthcare with access to the Patient Portal.

Mobile App

Enjoy secure remote access to your appointment schedule and other ABELMed data from your mobile phone or tablet. ABELMed Mobile runs on Android and iPhone platforms.

Billing and Accounts Receivable

- HCAI/WSIB e-claims.
- Telus eClaims – fast, accurate electronic insurance claims processing.
- OHIP billing and Outcome Reporting.
- MOHLTC Physio billing guidelines support.
- Financial adjustments including write-offs.
- Aged Receivables reporting.
- Detailed audit trail (invoices, payments, adjustments).
- Pre-submission claim verification.
- Integrated Billing Sheets.
- Super codes to facilitate quick billing entry.

We've used ABELMed including their EMR application, Portal (appointment reminders) and off-site back-up service for many years at all of our clinics. ABELMed had been successful in meeting all our administrative and clinical needs.

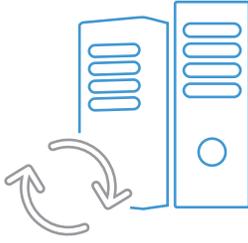

I would, without hesitation recommend ABELMed software and services to any multi-disciplinary clinic looking for a solution to best manage their practice.

Lead the Way Multidisciplinary
Rehabilitation Centres

Clinical Documentation

- OntarioMD certified EMR.
- Client progress notes and remarks.
- Evaluations, Re-Evaluations and Discharge reports.
- Extensive referral tracking management.
- Integrated encounter templates.
- Automated carry forward of encounter notes to reduce data entry time.
- Print/view client clinical records for any date range.

Remote Data Backup and Recovery

Benefit from our Remote Data Backup and Disaster Recovery Virtual Server Services

- Encrypts your data in transit and stores your encrypted files securely off-site where they can be retrieved at any time.
- Saves you the time, effort and responsibility of running daily backups.
- Protects your practice against failed, lost or stolen backups.
- Saves the cost of back up media and/or other external backup or verification services.

Dynamics 365 Business Central

Microsoft
Dynamics 365

Transfer of revenue information from ABELMed to Microsoft Dynamics 365 provides complete financial statements and advanced reports. The result is a more accurate financial picture for better cost control and practice performance assessment.
